

Distribute HDMI to 8 Remote Locations

EXT-HDMI-CAT5-148

Distribute HDMI Remotely -- Up to 8 displays, using CAT5 or HDMI cables

The new Gefen 1:8 HDMI Over CAT5 Distribution Amplifier allows you to distribute a single HDMI video source remotely to as many as 8 separate HDTV displays via inexpensive and standard CAT5 cables as well as HDMI cables.

How It Works

Simply plug your master video source into the Gefen 1:8 HDMI CAT5 Distribution Amplifier sender unit, then run your cables to the remote locations. If you are using CAT5 cables, pair up your cables with separately purchased HDMI CAT5 D.A. Extreme Receivers at each video display. If you are using HDMI cables, just attach up to 8 HDMI cables on the outputs and connect the ends to the displays. After connection of cables, power up (or re-start) all equipment and you will have effortless HDMI video duplication at all locations.

Also Available as a 4 Port DA

EXT-HDMI-CAT5-144

Features:

- HDMI Video Distribution to up to 8 displays
- 300 ft. at 1080i; 150-ft range for 1080p
- Enables greater versatility when installing multiple HDMI displays
- Maintains high resolution video - beautiful, sharp HDTV resolutions up to 1080p, 2k, and computer resolutions up to 1920 x 1200 are easily achieved
- HDCP compliant

Specifications:

- Video Amplifier Bandwidth: 165 MHz
- Input Video Signal: 1.2 Volts p-p
- Input DDC Signal: 5 Volts p-p (TTL)
- Single Link Range: 1080p/1920 x 1200
- HDMI Connector: Type A 19 Pin Female
- Power Supply: 24V DC
- Power Consumption: 50 Watts (max)
- Dimensions: 17.2"W x 3.5"H x 5.5"D
- Shipping Weight: 10 lbs.
