Application

The A-Line EJW115 is ideal for use in small venues where excellent speech or live music reproduction is required. When used in conjunction with the A-Line EJ2003-B line array speaker system to form an ELIJAH system, it can be used in the following applications.

• Houses of Worship
• Small Music Venues
• Small Auditoriums
• Lecture Halls
• Large Meeting Rooms

General Description

The Atlas A-Line EJW115A-B subwoofer speaker system is a high intelligibility, high efficiency speaker system that is ideally suited for use in speech and music reproduction applications for small venues like houses of worship, medium sized theaters, or schools in conjunction with the EJW2003-B full range line array speaker system. The EJW115A-B includes a single 15" subwoofer in an optimally designed and constructed sealed Baltic birch enclosure. This design provides even sound distribution. The EJW115A-B includes a 500W RMS integrated class-D amplifier that includes onboard DSP. The EJW115A-B is designed to provide power to an EJ2003-B in a single ELIJAH line array system and includes all necessary hardware to make this connection.

The Atlas A-Line EJW115X-B is a single 15" passive subwoofer in an optimally designed and constructed sealed Baltic birch enclosure. This design provides even sound distribution. The EJW115X-B is designed to be used with an EJ2003-B full range line array system. The EJW115X-B needs to be used as a part of a pair of ELIJAH systems where an EJW115A-B can be used to provide power to the EJW115X-B and two EJ2003-B units.
