PRODUCT OVERVIEW BROCHURE

Dedicated to saving lives and protecting assets

CABLE & HOSE PROTECTION SYSTEMS

Checkers manufactures the most extensive line of high performance cable protection products in the world. These durable systems protect valuable electrical cables, cords and hose lines from damage while providing a method of safe passage for pedestrian traffic, vehicles and heavy duty equipment.

For varied uses, we offer lidded models, drop-over models, open top models, and low profile models constructed from all-weather polyurethane. We also offer rubber duct models for light applications.

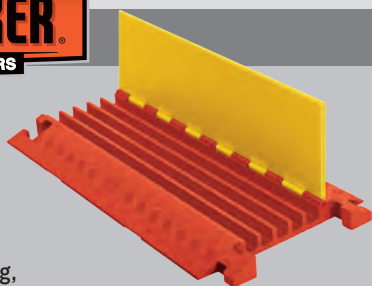

LINEBACKER®

CABLE PROTECTORS

HEAVY DUTY with T-Connectors

- Checkers' most robust cable protection option
- High load-bearing capacity
- Ideal for: Oil and Gas, Mining, Military, Industrial Applications

Model # CP5X125

YELLOW JACKET®

CABLE PROTECTORS

HEAVY DUTY with Dog Bone Connectors

- The "original" cable protector for over 30 years
- For heavy volume traffic areas
- Ideal for: Entertainment, Manufacturing, Material Handling

Model # YJ5-125

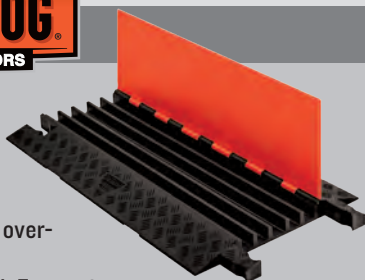

GUARD DOG®

CABLE PROTECTORS

GENERAL PURPOSE with Dog Bone Connectors

- Checkers' most versatile option
- For pedestrian traffic and over-the-road vehicles
- Ideal for: Utility, Industrial, Entertainment

Model # GD5X125

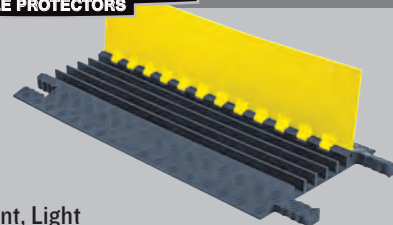

GRIP GUARD®

CABLE PROTECTORS

LIGHTWEIGHT with Gripper® Connectors

- Gripper® Connector - hand-conforming grip
- Super lightweight
- Ideal for: Entertainment, Light Commercial, Utility Applications

Model # GG5X125

FASTLANE®

CABLE PROTECTORS

LIGHTWEIGHT with L-Connectors

- Fast drop-over installation
- Compact, low profile design
- Ideal for: Offices, Warehouses, Commercial, Industrial

Model # FL1X1.5

Model # FL2X1.75

DIAMONDBACK®

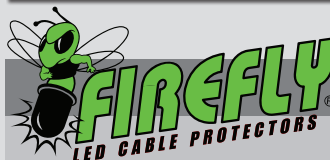

HOSE BRIDGES

HEAVY DUTY for Hoses up to 6.5 in.

- Reduces hose maintenance costs
- Ideal for: Refineries, Mining, Industrial, Firefighting Vehicles

Model # UHB4045

FIREFLY®

LED CABLE PROTECTORS

Model # FF5X125

- New orange and yellow lid colors to match your existing Guard Dog and Yellow Jacket cable protectors.
- High-visibility lid colors make it easily seen in low light conditions
- Battery-powered LED lights (red or blue) built in to side ramps
- Interconnects directly to a standard cable protector with a dog bone connection
- Protects cables and hoses up to 1.325" outside dia.
- Load Capacity: 21,000 lb./Axle (9,526 kg)

INDUSTRIAL WHEEL CHOCKS

Checkers manufactures one of the world's most extensive and versatile lines of wheel chocks. Monster® Wheel Chocks comply with the safety requirements of a variety of industries and ensure a safe working environment while your vehicles are at rest. Offered in either urethane or rubber, our wheel chocks provide a safe chocking solution for any type of vehicle.

Monster® Wheel Chocks were engineered in collaboration with safety experts to work with a wide range of ground equipment and vehicles, as well as commercial and military aviation vehicles. Whether you are chocking a 400-ton mine haul truck filled with rock or a small utility trailer in your driveway, we have the wheel chocks you need to safely secure your vehicle.

HEAVY DUTY

Model # MC3011

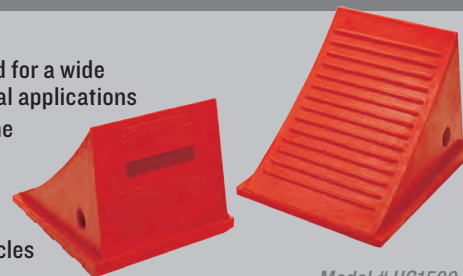

- MC Series - used in mines all around the world
- Durable, lightweight, and easy-to-use design
- Ideal for: Heavy Equipment, Haul Trucks, Cranes, Large Military Tactical Vehicles

MONSTER
WHEEL CHOCKS

GENERAL PURPOSE

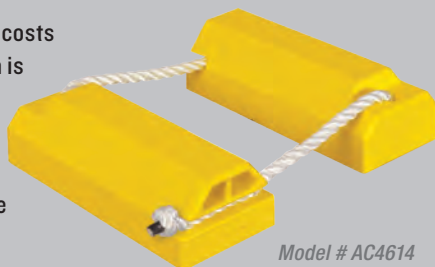

- UC Series - designed for a wide variety of commercial applications
- Lightweight urethane construction
- Ideal for Over-the-Road Trucks, Trailers, Utility Vehicles

Model # UC1500

AVIATION

- Reduces maintenance costs
- Urethane construction is durable, lightweight and easy to use
- Won't splinter or crack, eliminating Foreign Object Damage

Model # AC4614

WHY USE CHECKERS' WHEEL CHOCKS?

- Resistant to extreme weather, tears, abrasions, oils, and solvents
- Polyurethane chocks are extremely lightweight compared to excessive steel and aluminum counterparts
- Long-lasting product lifespan results in cost savings
- Checkers wheel chocks satisfy MSHA, OSHA, SAE, NFPA, and DOT compliance standards

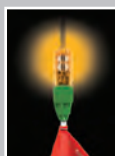

WARNING WHIPS

Checkers warning whips are available in lighted and non-lighted models and come with a durable nylon mesh flag. We also offer a variety of base mounts, mounting options, and lighting styles and colors. All-Purpose and Super Whip® Warning Whips greatly increase visibility of vehicles on work sites and are manufactured to handle the harshest conditions in mines, construction, and other industrial applications.

HEAVY DUTY & LIGHT DUTY

- The preferred whips all around the world - hundreds of options to choose from
- Base mounts available include Standard Threaded Hex Base, Quick Disconnect Base, and Lock Pin Base
- Standard Pole, Split Pole, and Telescoping Pole options
- Ideal for: Mines, Oil and Gas, Construction Sites, Other Industrial Applications

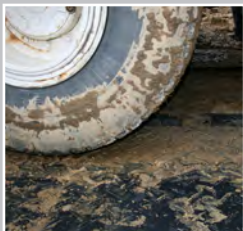

GROUND & TURF PROTECTION

Checkers is the world's leading manufacturer of ground and turf protection systems serving the construction, utility, mining, oil and gas, tree care, sporting, and entertainment industries. Offering different weight capacities and features, Checkers' ground protection systems provide these industries with safe and efficient walkways, roadways, and event platforms.

AlturMATs®

ALTURNAMATS® are made of 1/2 in. thick polyethylene and are virtually indestructible. Withstanding vehicles weighing up to 120 tons, the mats flex but do not splinter or break and feature a Limited Lifetime Warranty.

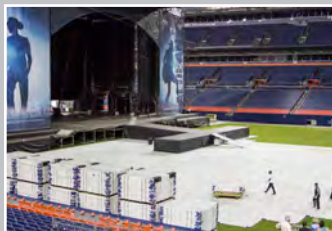

Model # AM48

- Bold cleat design for great traction
- Mats can be locked together with Turn-A-Links forming a continuous roadway
- Leaves turf smooth, even in soft conditions

terraplas

TERRAPLAS is designed with HDPE, making the system incredibly durable. These innovative event flooring solutions are used in stadiums, arenas, public parks, race courses, and hospitality areas.

Model # GXX1

- Translucent design allows grass to grow
- Integrated anti-slip top surface
- Guaranteed for 5 years, but proven life expectancy in excess of 15 years
- Modular design for fast and efficient installation

ADDITIONAL PRODUCTS

Aid™ Warning Lights produce more light output than competing products to create safer work environments. Using innovative technology and the highest quality materials, our high-visibility Barricade Lights, Strobe Lights, and Vehicle ID Lights provide superior performance and increased life to reduce replacement costs. GNR Park-It Car Stops, Speed Bumps, and Speed Humps are made from recycled rubber and provide an easy-to-install, durable, environmentally friendly parking lot safety solution.

BARRICADE LIGHTS

- 30% more light output than competing brands
- Built with heavy duty, UV-stabilized polycarbonate and polypropylene for extreme conditions
- Available in both electrical powered and solar powered models

STROBE LIGHTS

- Four exclusive user-selectable operating patterns
- Ultra high efficiency power supply produces more flashes while reducing power draw
- Available in both heavy duty and micro styles

VEHICLE ID LIGHTS

- Provides a safe solution for identifying multiple vehicles on site.
- Allows for optimum visibility, day or night.
- Durable construction withstands pressure washing, high impact, and temperature shifts.

PARK-IT CAR STOPS

- Made from recycled rubber
- 3-year warranty
- Molded reflective tape stripes available in yellow or white
- Ideal for surface and multi-level parking lots

Checkers also offers a large variety of other products to improve workplace safety. To see all of our safety solutions visit www.checkersindustrial.com.
